**Print full
colour labels
on demand,
without ink**

The Brother VC-500W Design 'n' Craft printer uses cutting-edge technology to guarantee a professional, full colour finish on every craft project.

It's simple to use and gives you complete creative freedom – whether you're making cards, gifts, or home decorations, they'll be unmistakably yours and can be customised to suit the lucky recipient.

**Perfect for crafters
and hobbyists -
make every project
unmistakably yours.**

Design labels on your computer or mobile device

Complete creative freedom

Use the free Brother Color Label Editor app or P-touch Editor label design software to customise every detail.

- Choose from hundreds of built-in icons, frames, filters, fonts and backgrounds
- Import photos from your library or from Instagram and Facebook
- Add lists of names or addresses for personalised creations in large quantities, such as place cards or save the dates
- Revisit and rework your favourite designs in future - every one will be saved.

Easy to set up and use

Seamlessly connect to your printer via USB or Wi-Fi to design labels on your PC, Mac, iOS and Android devices. Follow the simple on-screen instructions and you'll be ready to go within minutes.

No ink needed

Powered by ZINK® Zero-Ink® Printing Technology, the secret's hidden in the label rolls. Colour crystals in the paper are activated by heat to create full colour labels with no need for ink, which makes this handy little printer even easier to fit into your life.

Labels of all sizes

Create labels to the length you require

Available in five different widths, Brother's full colour label rolls guarantee a professional finish for every project. Simply slot in the roll you need and off you go!

With 9mm, 12mm, 19mm, 25mm and 50mm widths to choose from, the smaller tapes are ideal for finer details and patterns, and the larger sizes are great for printing full colour photos.

Cassette type	Width	Length
CZ-1001 cassette roll	9 mm	5 m
CZ-1002 cassette roll	12 mm	5 m
CZ-1003 cassette roll	19 mm	5 m
CZ-1004 cassette roll	25 mm	5 m
CZ-1005 cassette roll	50 mm	5 m
CK-1000 print head cleaning cassette	50 mm	2 m

Meet the expert

Don't just take it from us - crafting expert, Rosemary Merry has been using her Design 'n' Craft printer for all her recent projects, from cards and gifts to home decorations.

“ To create this birthday card, I started by making a series of cardstock layers as my base. Next, using the 12mm tape, I designed a personalised banner and printed four of the same design, sticking these down in a border around the edges.

I then selected the 50mm roll, and printed a basket graphic from the Easter collection in the Brother Color Label Editor app's art section.

As a separate design, I layered groups of flowers, duplicating the images, resizing and overlapping them until I was happy. I printed them and stuck them

to the card using dimensional adhesive to make the flower basket appear 3D. Finally, I used the 19mm roll to create a small message tag to add a personal touch.

I would have never been able to create a birthday card with as much personalisation as this without the help of Brother's new colour label printer, let alone make something that looks so professional!”

For more inspiration, watch Rosemary in action on the Brother UK YouTube channel.

Specifications and features

Printing / media

Printing technology	ZINK® Zero-Ink® full colour thermal printing technology
Print resolution	313dpi
Maximum print speed	8mm per second
